EXECUTIVE SUMMARY

Title V No.V-06-029 R1
DART CONTAINER CORPORATION OF KENTUCKY
HORSE CAVE, KENTUCKY
MARCH 26, 2008
LUIS D.FUENTES, REVIEWER
FINAL

SOURCE ID:	21-099-00024
AGENCY INTEREST:	1774
ACTIVITY:	APE20070004

SIGNIFICANT REVISION V-06-029 R1:

An application was received on October 3, 2007 for removing the applicability of 401 KAR 61:060, and the emission limit on the FoamPrint emission unit (EP 08). 401 KAR 61:060 is not applicable because none of the UV printers started operation prior to June 29, 1979. As a result of this significant revision, a new permit is being issued under V-06-029 R1.

SOURCE DESCRIPTION:

Dart Container Corporation of Kentucky (Dart), located in Horse Cave, Kentucky, produces a variety of food service containers including cups, containers, plates, lids, and utensils. Dart operates six different manufacturing processes on-site: expandable polystyrene container manufacturing; direct injection foam extrusion and thermoforming; impact extrusion and thermoforming; OPS extrusion and thermoforming; paper cup manufacturing; and cutlery injection molding.

U.S. EPA REVIEW:

The U.S. EPA was notified of the issuance of the proposed permit on January 28, 2008 via e-mail. The comment period expired 45 days from the date of e-mail. No comments were received during this period. The permit is now being issued final.
